

**AUTHORS INDEX of JWE Vol.8 (2009)**

<b>A-F</b>	<b>G-O</b>	<b>P-Z</b>
<p>J. Abascal, see M. Vigo                      A. Amandi, see E. B. Duran                      M. Arrue, see M. Vigo                      L. Baresi <i>Editorial</i> (1) 1                      M. Book <i>Fine-Grained Specification and Control of Data Flow in Web-Based User Interfaces</i> (1) 48                      E. Bozdag <i>Performance Testing of Data Delivery Techniques for AJAX Applications</i> (4) 287                      A. De Lucia <i>An Investigation of Clustering Algorithms in the Comprehension of Legacy Web Applications</i> (4) 346                      S. Di Martino <i>Measures and Techniques for Effort Estimation of Web Applications: an Empirical Study Based on a Single-Company Dataset</i> (2) 154                      M. Di Penta, see S. Huang                      D. Distante (I), see J. Ginzburg                      D. Distante (II), see A. Garrido                      E. B. Duran <i>WUM Approach to Detect Student's Collaborative Skills</i> (2) 93                      F. Ferrucci, see S. Di Martino                      P. Fraternali, see L. Baresi</p>	<p>A. Garrido <i>Systematic Improvement of Web Applications Design</i> (4) 371                      J. Ginzburg <i>Oblivious Integration of Volatile Functionality in Web Application Interfaces</i> (1) 25                      S.K. Goudos, see V. Peristeras                      C. Gravino, see S. Di Martino                      V. Gruhn, see M. Book                      Y. Ha <i>A Semantic Web Services-based Infrastructure for Ubiquitous Service Systems</i> (2) 182                      H. Han <i>An Automatic Web News Article Contents Extraction System Based on RSS Feeds</i> (3) 268                      G.-J. Houben, see L. Baresi                      S. Huang <i>Editorial</i> (4) 285                      S. Kang, see Y. Ha                      C. Kimble, see I-H Ting                      L. Kozanidis, see S. Stamou                      D. Kudenko, see I-H Ting                      N. Loutas, see V. Peristeras                      A. Marchetto <i>An Empirical Validation of a Web Fault Taxonomy and its Usage for Web Testing</i> (4) 316                      J. Miller, see A.F. Tappenden                      E. Mendes, see S. Di Martino                      A. Mesbah, see E. Bozdag                      T. Noro, see H. Han</p>	<p>C. Park, see Y. Ha                      V. Peristeras <i>Ontology-Based Search for eGovernment Services Using Citizen Profile Information</i> (3) 245                      F. Ricca, see A. Marchetto                      M. Risi, see A. De Lucia                      G. Rossi (I), see J. Ginzburg                      G. Rossi (II), see A. Garrido                      G. Scanniello, see A. De Lucia                      S. Stamou <i>Ontology-Driven Personalized Query Refinement</i> (2) 113                      A.F. Tappenden <i>A Survey of Cookie Technology Adoption Amongst Nations</i> (3) 211                      K. Tarabanis, see V. Peristeras                      I-H Ting <i>Finding Unexpected Navigation Behaviour in Clickstream Data f Website Design Improvement</i> (1) 71                      T. Tokuda, see H. Han                      P. Tonella, see A. Marchetto                      G. Tortora, see A. De Lucia                      P. Tzekou, see S. Stamou                      A. van Deursen, see E. Bozdag                      M. Urbietta, see J. Ginzburg                      M. Vigo <i>Enriching Information Retrieval Results with Web Accessibility Measurement</i> (1) 3                      N. Zotos, see S. Stamou</p>
